

Bellamy and Oyster River Protection Partnership
Meeting Minutes
October 18, 2006

Attendance: Brian Gallagher (UNH), Tom Fargo (Dover), Bob Eckert (Barrington), Eric Fiengenbaum (Madbury), Tom Cravens (Portsmouth)

Absent: David Cedarholm (Durham), Chuck Cox (Lee)

Others:

Minutes: Minutes from September were approved with the correction that monitoring wells had been approved, not necessarily by EPA.

Agenda Items:

1. Eric will contact Jeff Schloss from the New Hampshire Lakes Lay Monitoring Program (NH LLMP) about having a conversation about Swains Lake and the surrounding area. Chuck Cox had previously indicated that he may have a contact living on Wheelwright Pond in Lee.
2. Various members shared possible materials that could be displayed by BORWPP at the upcoming Watershed Conference at DES. Suggestions were made about additional materials needed and possible placement. Eric will contact Laura Weit at DES confirming the table, outlet and setup time.
3. It was noted that the local paper carried an article about MtBE at Madbury Metals, also known as New England Metal Recycling.
4. There was a short continuation of the discussion concerning funding for BORWPP. UNH and Portsmouth each indicated that they could contribute (~ \$200) from existing budgets that they administer. Others would investigate possibilities.

Respectfully submitted
Eric Fiengenbaum
